Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Amendment

This action is in response to the request for re-consideration filed on 10/21/2004

As per applicants request claims 1-3, 5-7, 9-12, 14-16 and 18 have been amended.

Explanation and clarification filled by the applicant for claims 1-3, 5-7, 9-12, 14-16 and 18
examiner has withdrawn 35 USC 101 rejection.

Claims 1-3, 5-7, 9-12, 14-16 and 18 have been considered but they are not persuasive.

Claims 1-3, 5-7, 9-12, 14-16 and 18 stand rejected under U.S.C 102(e) as being unpatentable
over Kim et al USPN 6,016,474.

Applicant argues,

I) “Automatically generating events based on event production weight that is assessed by
considering the relationship between the events and the program segments”.

II) “The relationship between the events the segments and the un-debugged software in terms of
numbers”.

III) “The production weight which is used to be the guide for generating events is calculated by
using the ratio of each program segment to the software”.

In response to applicant’s arguments,

I) It was noted that cited reference fairly suggest that occurrence of a particular event do happen
so that debugging can be done (column 7, lines 35-44 and relationship between the events and
program segment is also suggested (see column 8, lines 5-13), therefore, limitations are met by
the reference.

Art Unit: 2193

II) It was also noticed by the applicant in the remarks that cited reference maps out the relationship between functions at multi levels. And reference depict it more clearly (see column 10, lines 9-21), therefore examiner interprets that relationship has been established between events for bugged and de-bugged portion of the software. Thus limitations are met by the reference.

III) Cited reference does not use exact word the production weight but fairly suggest that events has been taken into account and used ratio approach for each segment of the code (see column 11, lines 1-22), thus limitations are met by the reference.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
